

MOHINI PATIL

Seeking an opportunity to work in a professional and dynamic environment where I can effectively utilize my knowledge and skills while contributing to the growth of the organization.

PROJECTS

1. Child Adoption System

Developed a Child Adoption System to make the adoption process simple and organized. The main purpose is to help users view child details and apply for adoption easily.

Technologies: HTML, CSS, JavaScript, PHP, MySQL

2. Bank Management System

Developed a Bank Management System to manage basic banking operations. The system allows users to create an account, deposit and withdraw money, check balance, change PIN, and view mini statements.

Technologies: Core Java, AWT, Swing, JDBC, MySQL
